

Exclusive guided tour in Milan: La Scala, Duomo Square and Galleri

Enjoy an exclusive tour in the heart of Milan with a guided visit of the La Scala Museum and Theatre, the Galleria Vittorio Emanuele II and Piazza Duomo. The Teatro alla Scala was built in 1776 on the ashes of the old Ducal Theatre and at the beginning of the following century it became the home of Italian opera thanks to the great work of Gioacchino Rossini. The Scala Theatre Museum is the recurrent protagonist of theatre's glorious history. It houses an extensive collection of costumes, portraits, sketches and musical instruments. Among the many museum treasures there is the precious collection of Sambon ceramics, all following the theme of theatrical tradition, and the portraits of the great masters who have graced the stage of La Scala, like Arturo Toscanini, Giacomo Puccini and Giuseppe Verdi.

After the visit to the theater the tour will continue with a wonderful walk in the heart of Milan's famous Galleria Vittorio Emanuele II, built in the second half of the nineteenth century and considered one of the world's oldest shopping malls. From here you get directly into the majestic Piazza Duomo, with the equestrian statue of King Vittorio Emanuele, the beautiful Palazzo Reale and the Palazzo dell'Arengario and of course the magnificent Gothic cathedral. The tour will end at the Duomo Market: the guide will accompany you there and then you are free to explore this 500-square-meter indoor space, where you can lose yourself among scents and flavors of local products and raw materials in the heart of Milan. Showing our voucher, you will be entitled to 10% discount on any product for sale in the Market!

DURATION: 90/120 minutes
